RECOGNIZING AND RESPONDING TO CLUTTER ADDICTION AND COMPULSIVE HOARDING IN OLDER ADULTS

When does collecting turn into pathological hoarding? What can be done when an older person lives amongst so much stuff that it interferes with activities of daily living and creates a safety hazard? Presenters will discuss the prevalence and demographics of hoarding as well as the latest research findings on hoarding and elders. Specific intervention and treatment strategies will be shared. *You will have your choice of several workshops as listed below.*
